About

Corporate.ComplianceOnline.com
Corporate.ComplianceOnline.com is a portal and online community created by ComplianceOnline for compliance and quality professionals of NASDAQ-listed companies. It is a trusted source for worldwide professionals seeking information, best practices, training, products on regulatory compliance, industry standards, and quality principles. It provides a platform for community-based training, online events, and interactive learning programs for compliance professionals.

For a complete listing of courses, visit the **Online Training** section on <http://corporate.complianceonline.com>

Content powered by ComplianceOnline.com, a business unit of MetricStream, Inc. as a part of strategic alliance with NASDAQ.

How the program works?

- ▶ Standard ComplianceOnline courses are online seminars of 60-75 minutes duration and are currently priced at \$249 per attendee that is equivalent to **1 Training Unit**. Some special courses could be priced higher and correspondingly carry more number of training units.
- ▶ You could use the Training Units for training individual employees or for groups on an ongoing basis. For example, with 50 Training Units, you can train 50 employees on different training courses or a group of 50 can be trained on a single course.
- ▶ Training managers can redeem the Training Units by registering employees for the course or assign the Training Units to employees and department managers. This enables the employees and department managers to directly register for the training courses of their choice by redeeming the Training Units.
- ▶ Once you purchase a Training Unit Pack, You can keep track of your available, redeemed, and assigned Training Units in MyComplianceOnline section of Corporate.ComplianceOnline.com.
- ▶ The validity of Training Unit Packs is one year from the date of purchase.
